Tourist facility / Tourism facilities	<p>The term 'tourist facility' and 'tourism facilities' are used to describe envisaged forms of land uses and inform assessment policy within the Conservation Zone. No definition is provided for either term.</p> <p>While in many instances it will be quite easy to identify facilities that are a tourist facility, the lack of a definition leaves the term open to interpretation.</p> <p>We recommend that a definition for tourist facility/tourism facilities be included in the Code as well as guidance as to what is and is not a tourist facility or facilities. Alternatively, the term could be removed from the Code and replaced with defined terms.</p>
